

# Unlimited channels for one whole year

## Use channels to make content operations easier

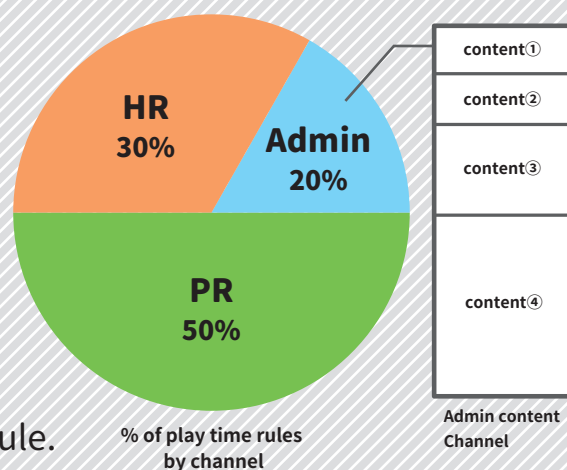

In Otegaru net, channels refer to playlists of content.

You can split your content into any number of channels to make content updating more efficient.

## Advantages of channels

- Easily set a rule to control the total play time for each channel.
- Freely update your channel content with as little or as much as you like. Otegaru net automatically maintains the channel percentages.
- Completely eliminate the labour intensive work of balancing different kinds of content in a master schedule.

### Example Of Using Channels

### Special Offer

How many channels should you use?  
It's not hard, but being able to experiment is the fastest way to find the most efficient style for your content.

For the price of two extra channels we give you one year to try using as many channels as you like to figure out the perfect number that makes managing your content a breeze!

## Offer limited to new customers only

**From start of service for 1 full year 20,000 Yen (plus Tax)**

During your first year of service, contact us to add or reduce channels as many times as you like.
